■ Applicants

1785

■ Approved

1328

AES Exemption Statement

- Proper Exemption Reporting can keep your shipments from being delayed
- Clear and Complete on the first page of the BOL, AWB or other loading documentation
- No difference between Option 2 and Option 3 Exemptions
- NDR AES Filer ID - Shipment Reference #
Example: NDR AES 222256789 - HOU12345

AES Exemption Statement cont...

- Option 4 - Get the Exporter ID Right!!!
- NDR AES4 Exporter ID - Filer ID
Example: NDR AES4 22081853600 - 222256789
- FTSR 168 on the WEB

Carrier Code and Transportation Reference Number

- SCAC and Booking Number should be the Carrier moving the Cargo out of the U.S.
- AES matches on the Ocean Booking Number
- SCAC and Booking of the NVOCC is acceptable
- *U, *C, *F for unknown air carriers
- *M for unknown Mexican Trucking Companies

HTS Numbers Invalid for Export

- 168 HTS Numbers Invalid for Export
 - ◆ On Census Web Site
- Schedule B Number is more detailed than the HTS
- Examples
 - ◆ Edible Offal
 - ◆ Sausages
 - ◆ Seeds
 - ◆ Ocean Perch

Transshipment of Exports through CANADA

- Exports to other countries through Canada require reporting
- MOT - The method the cargo crosses the US/Canadian border
- Port of Export - The port at the border where the cargo crosses
- Carrier Name - The carrier name and SCAC/IATA moving the cargo across the border
- Unlicensed Exports to Canada do not require an SED or AES transmission

Suggested Reporting Limits

- One Header and one Trailer per Transmission
- 99 Exporters per Header
- 99 Shipments per Exporter
- 999 Lines per Shipment
- Exceeding these limits will slow down you and everyone else

AES Performance Problems

- Report problems to your Census or Customs Representative
 - ◆ ASKAES@ccmail.census.gov
- Customs OIT Fix March 1, 2000
 - ◆ Faster Processing
 - ◆ Minimum Lost Output
